

# Tilted TEA™

**110 mg**  
CAFFEINE  
per serving

**0**  
SUGAR

**0**  
JUNK

*Natural Clean Energy*

**TILTED**

**VS.**

**OTHERS**

## *Natural Caffeine*

Tilted Tea™ Caffeine is derived from Pure Tilt™, a Proprietary Blend of Green Coffee Bean, Matcha Green Tea, and Guarana Bean.

## *Clean Taste*

Tilted Tea™ uses clean, natural ingredients that are more pleasing to the taste.

## *Natural Sweetener*

Tilted Tea™ uses clean, natural ingredients like pure stevia and monk fruit sugar for just the right sweetness.

## *Natural Benefits*

Tilted Tea™ benefits the body with ingredients that could support weight loss, heart health, mood health, skin health, immune health, anti-inflammation, memory health, and gut health.

## *Sustained Energy*

Tilted Tea™ uses B vitamins, Taurine, and Ginseng to gradually increase energy levels and slowly decrease over time allowing natural Glucose levels to do its job.

## *No Fake Fillers*

Tilted Tea™ consist of a what you see is what you get. Even using natural Organic Gum Acacia as an emulsifier, dietary fiber, and stabilizer.

## *Synthetic Caffeine*

Others could be loaded with chemically synthesized ingredients pressed together usually in tablet form.

## *Medicinal Taste*

Others could be loaded with chemicals and lab made ingredients that are foreign to our taste buds and leave an unpleasant after taste.

## *Artificial Sweetener*

Others could be loaded with chemicals and alcohols such as Acesulfame - K, Inositol, Sucralose, and Corn Syrup Solids. These are cheap substitutes for sugar and sweetness.

## *Unhealthy Side Effects*

Others could be loaded with preservatives and laxatives that could cause intestinal issues and artificial sweeteners that can increase the risk of weight gain, increased sugar absorption, and increased glucose levels.

## *Energy Crash*

Others could be loaded with synthetic additives that end abruptly over a shorter period of time leaving the body's natural glucose levels out of control.

## *Fillers and Preservatives*

Others could be loaded with cheap substitutes like Propylene Glycol, Sodium Benzoate, and Maltodextrin for fillers and digestion aids.
